

I claim:

1. A mirror frame with moisture-proof patterned side-frames for bathroom,
wherein the side-frame is made of transparent acrylics, having a pop-out
5 surface tightly welded onto a base and a bottom board by the edges
thereof, which form thereinside a flat slender room between the bottom
and the surface, and the bottom part of the room is welded onto a bottom
lid so as to provide a completely sealed room.
- 10 2. The mirror frame with moisture-proof patterned side-frames for bathroom
according to claim 1, wherein said sealed room contains thereinside a
removable slender plate on which a predetermined pattern is either
directly printed or painted, or indirectly adhered thereto.
